## SUMMARY

Highly motivated computer science student with strong problem-solving and coding skills in Python, Java, C, SQL. Seeking an internship to gain practical experience in web development, data science.

## TECHNICAL SKILLS

- |          |              |         |
|----------|--------------|---------|
| • Python | • HTML       | • ML    |
| • Java   | • CSS        | • SQL   |
| • C      | • JavaScript | • Linux |

## WORK EXPERIENCE

### Data Science Intern

Aug 2024 – Sep 2024

- Data Science Intern at CodSoft (Remote), where I developed and implemented machine learning models and worked with real-world datasets.

### Web Development Intern

Feb 2024 - Mar 2024

- Served as a Web Development Intern at Prodigy InfoTech (Remote), where I developed and maintained web applications and contributed to relevant projects.

### Study Abroad Program

8 July 2023 - 15 July 2023

- Participated in a Study Abroad Program at the National University of Singapore, focusing on Artificial Intelligence and Machine Learning.

## PROJECTS

### Personal Portfolio Website

- Developed a personal portfolio website showcasing my skills and projects using HTML, CSS, and JavaScript. Demonstrates proficiency in front-end web development and web design principles.
- Project Link: [Portfolio](#) ([GitHub](#))

### Weather App

- Developed a user-friendly web application that fetches real-time weather data from the OpenWeatherMap API, featuring geolocation for a more personalized user experience. This highlights the core functionality and the use of an external API.
- Project Link: [Weather App](#) ([GitHub](#))

### Sales Prediction using Python

- Utilized machine learning techniques such as Linear Regression to identify key factors influencing sales and build an accurate predictive model.
- GitHub Link: [Sales Prediction](#)
- Dataset Link: [Sales Dataset](#)

## EDUCATION

### Institute of Engineering and Management

2022- Present

- Currently Pursuing B.Tech in Computer Science.
- CGPA : 8.69
